

Soft Solutions, Inc.

4-Sight FAX Server 7.5

Supported Hardware Devices

Modems

The following list of modems have been tested extensively by Soft Solutions, Inc. and have been found to be compatible with 4-Sight Fax. The fastest any fax will transmit is the slower of the sending or receiving machine/modem. Using a lower baud rate can increase reliability in modem connectivity.

Today, the majority of fax machines in use world-wide transmits and receives between 9600 and 19200 baud. We recommend the MultiTech fax modems, as they have been proven to be the most reliable of all models tested.

Supported Modems

These modems are compatible with the 4-Sight FAX Server. Soft Solutions, Inc. currently offers MultiTech MT9234MU-CDC modems for purchase.

Modem
Apple Internal (Class 1 & 2)
Apple External USB
Botticelli USB
Hayes Accura/Optima
Motorola Internal (Class 1)
MultiTech MT1932
MultiTech MT2834ZDXb
MultiTech MT5600ZDX (V)
MultiTech MT5634ZBA-USB-v.92
MultiTech MT5634ZBA-v.92
MultiTech MT9234U-USB
MultiTech MT9234ZBA-USB
MultiTech MT9234MU-CDC
Supra & Zoom
SupraSonic 336V+
US Robotics Courier
US Robotics Courier v.Everything
US Robotics 5637 USB
Zoom 3095 USB
