

Building a Win32 plug-in using CodeWarrior for Windows

Metrowerks CodeWarrior version 7 or later is recommended.

The "SPAPI.lib" library is a static library and must be added in to the application project. The "SPAPI.lib" file can be found in the "Libraries/for CodeWarrior" directory of the SDK.

The header files "SPAPI.h" and "SPBasicTypes.h" will need to be included and can be found in the "Headers" directory of the SDK.

The "SPAPI.lib" library **MUST** be the first item in the Link Order.

The following libraries should be added to the project:

- SPAPI.lib
- MSL C++.PPC.Lib
- MSL_All_x86.lib
- Gdi32.lib
- Kernel32.lib
- shell32.lib
- User32.lib
- winspool.lib
- ws2_32.lib
- wininet.lib
